## *Selected Projects*

### Curibot

www.curibot.net, March 2008 - present  
This website showcases and archives the strangest and most interesting items for sale across the internet. Growing rapidly, the site currently averages over 60,000 visitors per month. Designed and maintained by Apt. 32.

### JetBlue StoryBooth

MESH Architectures, March 2006 - May 2006  
A mobile recording studio created for JetBlue, coordinated by JWT, and designed and built by MESH and collaborators. Personal responsibilities: project management, design, construction drawing and administration.

### MiraeAsset LiveCube Office

MESH Architectures, 2006 - 2007  
A 10-story office building sited near Seoul, South Korea, this project addressed an adjacent pedestrian promenade by pulling its facade inwards and creating a welcoming public garden. Personal responsibilities: computer modeling coordination, part of the conceptual design team.
